Education

Alva's Institute of Engineering and Technology, Mijar, Moodbidri <i>B.E. in Artificial Intelligence and Machine Learning</i>	2023 – Pursuing <i>CGPA: 8.51</i>
Govt PU College, Nelekani, Sirsi <i>Pre-University</i>	2021 – 2023 <i>Percentage: 80.5%</i>
Ave Maria High School <i>SSLC</i>	2021 <i>Percentage: 73%</i>

Technical Skills

- **Programming Languages:** Python, SQL, C, Java, HTML, CSS, .Net, C++
- **Frameworks:** Django, FastAPI, Flask, RAG, Streamlit
- **Libraries and Tools:** NumPy, Pandas, Matplotlib, Seaborn, Jupyter Notebook, SQLAlchemy, LangChain, OpenCV, Git, GitHub, Docker
- **Data Analysis & Visualization Tools:** Microsoft Excel, Tableau, Power BI

Projects

Student Notes Chatbot <i>FastAPI, PostgreSQL, RAG, LangChain</i>	Collaborative Project <i>Backend Development</i>
• Collaborated in developing an AI-powered chatbot that answers questions based on uploaded academic notes. • Contributed to backend development with a team member, including API development, document processing, and database integration.	
Movie Recommendation System <i>Python, Streamlit, Pandas, Scikit-learn</i>	Machine Learning Project <i>Content-Based Recommendation System</i>
• Developed a content-based movie recommendation system using text feature extraction and cosine similarity. • Built an interactive application that recommends similar movies based on the user's selected movie.	
Memory of Elephant vs Intelligence of Machine <i>Python, Computer Vision</i>	Academic Mini Project <i>Wildlife Monitoring System</i>
• Developed a computer vision-based system to detect elephants entering agricultural areas. • Implemented an alert mechanism to notify administrators and support human–elephant conflict prevention. • Co-authored and submitted a conference paper based on the project.	
IntelliStock – AI-Based Inventory Management System <i>Python, Streamlit, Pandas, Machine Learning</i>	Hackathon Project <i>AI/ML Application</i>
• Developed an inventory management system for monitoring stock levels and analyzing inventory data. • Built an interactive Streamlit dashboard to visualize inventory information and generate stock insights.	

Achievements & Certifications

- Solved **110+ coding problems** across LeetCode, HackerRank, and Codeforces.
- Participated in the **TechFusion 2.0 Hackathon** as a member of Team **Code Error 404**.
- Participated as **Team Leader** in the **Technovate-2K25 Hackathon**, organized by AIML & CSDS.
- Completed 12-week **NPTEL certifications** in **Cloud Computing** and **Introduction to Internet of Things**.
- Completed Coursera certifications in **Generative AI, Cloud Computing, and related technologies**.

Interests

- Exploring Large Language Models, cloud technologies, emerging AI tools, and creative sketching.
